

Machine Safety Seminar

MACHINE SAFETY SOLUTIONS THROUGH INTEGRATED ARCHITECTURE

March 17th and 19th

Join us as we show you the benefits of Machine Safety Solutions with this hands-on opportunity.

Featured topics Include:

- Industry trends and regulations for machine safety
- The breadth of Rockwell Automation safety products and services
- Risk assessments and how they can be utilized to properly identify and engineer the most cost effective safety solution
- Applying Rockwell Automation products to cost effectively solve their safety challenges while maximizing productivity

Answer the following key customer questions:

- What is required to make my machine safe?
- How do I determine the best solution?
- What does Rockwell offer to achieve the solution?
- How do I put it all together?

EVENT AGENDA

Morning Session

**Introduction to Functional Safety
Safety Standards & Regulations
Risk Assessment Overview**

Lab Session

- Lab #1:** Understanding Categories using Safety Relays
- Lab #2:** Zone control w/ the MSR300
- Lab #3:** Zone Control w/ the SmartGuard600
