

## VCS14191: Understanding Chemical Hazards

As part of its HAZWOPER regulations, OSHA created comprehensive training standards to make sure that employees can recognize, handle and dispose of HAZMATs and hazardous waste safely.

REALTIME-SAFETY's training products on "HAZWOPER: Understanding Chemical Hazards" introduce employees to chemical hazard regulations and provides training on the various types of hazardous chemicals found in industrial environments.

Topics covered in these products include:

- Chemical hazard concepts.
- Types of hazardous chemicals.
- Characteristics and effects of various types of chemicals.
- Safety Data Sheet (SDS).
- Container labeling.
- Safe handling practices.
- Use of personal protective equipment (PPE).
- Spills and cleanup.

This Micro-Learning curriculum includes the following modules:

- "Safety Data Sheets, Container Labels and the Written Program"
- "Toxins, Corrosives and Irritants"
- "Flammables, Combustibles and Gases"
- "Carcinogens and Radiation"
- "Exposure Situations"
- "Personal Protective Equipment and Storage"
- "Spills and cleanup"
